SUMMARY

Dynamic and compassionate professional with a strong focus on achieving goals and a proven track record in organisation and leadership. As a determined individual, I excel in interpersonal communications and thrive in both team-oriented and independent settings. My experience as a supervisor in the retail sector highlights my ability to lead and support teams while providing exceptional customer service. Additionally, my ongoing role as a Director of a Community Interest Company demonstrates my commitment to addressing mental health issues and making a positive impact within the community.

EXPERIENCE

Web Developer

Freelance

September 2024 – Present, Remote

- Design, develop and maintain websites for small businesses and individuals using a range of tech stacks.
- Integrate responsive design principles to ensure seamless user experiences across devices and browsers, boosting engagement and accessibility for clients.

Director of Messages of Hope

Messages of Hope (C.I.C.)

November 2023 – Present, Barry, South Wales

- Directed and managed multiple campaigns to secure funding, enabling continued support for individuals facing mental health challenges.
- Oversaw the technical operations of the organisation, including email management, website maintenance, and resolution of technological issues.
- Played a key role in organising "Connections 2024", a poignant short film created in collaboration with Speakers Collective for Mental Health Day 2024, funded by The Mayor of London and Thrive LDN.

Website Developer Intern

University of St Andrews Student Association

August 2023 – May 2024, St Andrews, Scotland

- Partnered with the design team to elevate the website's visual appeal and improve functionality by implementing targeted updates and integrating innovative features.
- Analysed website performance data to boost user engagement, delivering insights through written reports and engaging interactive presentations for the management team.
- Assisted in content creation and optimisation for the website, ensuring alignment with SEO best practices to improve search visibility and drive organic traffic.

Retail Team Leader

Mountain Warehouse

September 2022 – September 2023, St Andrews, Scotland

- Delivered exceptional customer service, by identifying customer needs and matching their requirements.
- Collaborated effectively with the management team to ensure smooth operations, providing guidance and support to staff members, as well as training new members.
- Tracked stock usage and displays to ensure a proper layout in the shop, maximising floor space, working with the area manager to ensure our store was receiving the products best suited for the area.

Mathematics Tutor

Freelance

May 2019 – August 2022, Penarth, South Wales

- Provided personalised tutoring to students aged 11 to 15, enhancing their mathematical skills through engaging techniques and tailored lesson plans.
- Facilitated a supportive learning environment that encouraged student participation and confidence in mathematics.

EDUCATION

University of St Andrews – Computer Science

- I spent 3 years studying BSc Computer Science at the University of St Andrews.
- Awarded with The Dean's List for academic excellence, and a medal for my performance in Module CS2006 – Advanced Programming Projects.

A-Levels in Mathematics, Further Mathematics, Computer Science and Physics

Ysgol Stanwell School • Penarth, South Wales • 2021

- Achieved A* in Mathematics, Further Mathematics, Physics and Computer Science.
